NEWS IN BRIEF

Schools out, and summer is here. As usual in this part of the world that doesn't always mean wall to wall sunshine and heatwaves but hey...! As the holidays begin the diary is quite thin as we all take a well-deserved breath and hopefully recharge the old batteries. In our centre spread we have a sketch map to help visitors and residents see what's in the village.

When we took over What's On nearly two and a half years ago we were delighted to have the support of the existing advertisers, without whom we wouldn't have a magazine. So, it is very gratifying as a small group of volunteers, to have the support of more businesses around the area who have joined the loyal band of advertisers supporting our publication. We are also very grateful for the volunteers who give up their time to deliver the magazine through residents' doors, not to mention the outlets that support us by displaying the magazine and spreading the word further afield. So, welcome to our new advertisers and thank you all for making this project work.

As always, an awful lot of the things that make life better in our community are down to the efforts of residents who give a little of their time. Added together this makes our parish a place worth living in and improves our daily lives. This

month sees the return of the 'flashmob' and 'litter pick' groups doing their bit to help, when money is tight both at home and in the local authority, it makes a huge difference. I for one am very grateful and I am sure I speak for many, when I say "Thank you!"

Pop In

"Coffee, Community and company, some things in life are better shared"

You are warmly invited to join us at the August pop in on Tuesday 19th August, when we will gather together for a cuppa anytime between 10.15 - 11.45 in the Nissen Hut in the free car park. If the sun is shining we may be sitting outside enjoying it, in which case you might want your hat and shades! Anyone can come along and it is one of the few things in life which is free and also easy! It can be hard coming out of the house and facing something unknown for the first time, but believe me we will welcome you and it gets easier the more you do it. Please bring your mug along with you and we look forward to seeing you.

Jill.

CRow WALK –

1st JULY 2025

Following some heavy rainfall overnight, the walk in July kept mainly to byways and broader bridleways that weren't overgrown and offered firmer ground underfoot.

Wheal Busy Lane byway. Halfway up, **turn right** onto a rocky bridleway that leads uphill and through a stock-gate by Hillside Farm. We continue uphill – snipping several bramble runners straggling across the trail. The bridleway soon widens with firm grass underfoot and banks of blackberries on each side. At the

We started with a few urban trails after leaving the Car Park, passing the Old Market and **turn left** to go uphill on Jake's Lane towards the Bowling Club. At Falmouth Road, **turn right** and in 100m cross High Street and go straight down Bakers Lane byway. Across the Leat on Sergeants Hill bridge and continue uphill to the Terrace where we **turn left**.

At another 100m we take the **right fork** and move steadily uphill on

top of the hill we look over Wheal Busy Downs and continue to walk along the well-compacted gravel surface of the bridleway.

Arriving at a junction, with a field-gate on the right, we **turn left** under an arching canopy of scrub oak trees. As we pass down the broad bridleway, the twin white domes of the Observatory for Cornwall can be seen through the hedgerows on the right-hand side.

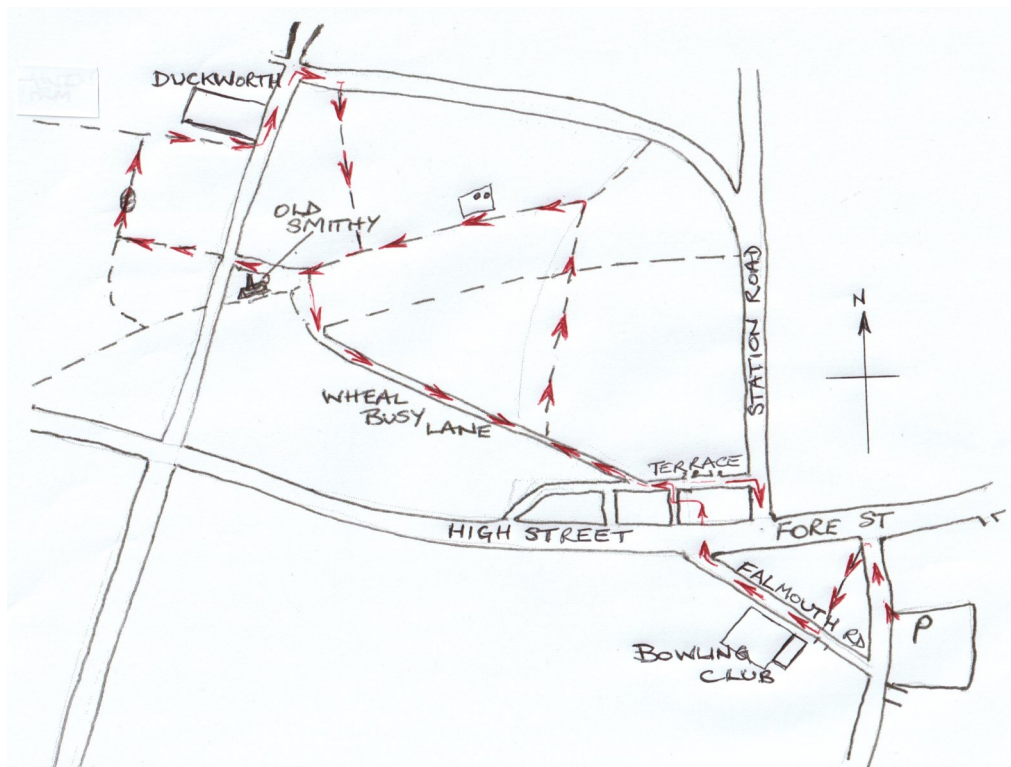

We pause briefly by the post-box next to the poor Old Smithy and observe the building progress of four new dwellings over the road. Going **straight across** the road ourselves, we move up another broad bridleway past Pitslewren Farm. At a "T" junction we **turn right** and head north along this well-drained bridleway. We take a quick photo, **turn right** again at the next "T" junction and return to the road beside Duckworth's industrial park.

Some fast-moving cars and blind corners meant a direct return to the Old Smithy was too risky so we **turn left** up the road, move 100m

uphill and **turn right** at the crossroads. After 40m we leave the road, **turn right** again and go down the best-maintained bridleway which takes us safely back to the Wheal Busy Engine and Boiler House.

From here we return to the village on Wheal Busy Lane, back along the Terrace all the way to Station Road, across Fore Street and arrive at the Car Park by 11 am.

There is NO CRoW Walk in August. The next CRoW Walk is on Sunday 7th SEPTEMBER - meet at main Car Park 09.30am. Everybody welcome.

Fancy being in the Panto?

Chacewater Players had a lovely BBQ on a very hot Saturday to celebrate

the end of our year. Thank you to all who attended and to the chefs sweltering whilst cooking.

No rest, though. Players are now looking forward to our next production, a Pantomime:- NEVERLAND to be performed in January 2026. The first meeting will be on MONDAY 8 SEPTEMBER 2025. We welcome anyone and everyone

who is interested in joining our happy group. Please don't be shy. We are looking for performers, back stage crew, anyone who has a talent. It could be craft - we can make use of you for props. Are you good at sewing ? You'd be perfect for costumes. Can you paint ? We'd welcome you for scenery. Help is also needed with chaperones for the children.

If you don't have talent then enthusiasm is perfect too! Come along and make some new friends. We'd love to meet you.

See you soon, *Chacewater Players*

VILLAGE PONDWATCH -

JULY 2025

Did you wonder where the tadpoles went? Sharp-eyed visitors spotted several tiny toadlets wandering through the damp early-morning grass beside the pond.

The air around the pond is full of activity and there is constant movement over the water. In warm sunshine, squadrons of damselflies dance across the pond just inches above the surface. They jink through the air over the water and jockey for position to perch on waterside plants. Every day, dozens of azure damselflies dodge around the plants and rest among the leaves. In a stiff breeze a single male tacks across the pond. Later, a mated pair of azure damselflies emerges from the reeds and alights on a small lily pad. A few red damselflies are vastly outnumbered.

A Broad Bodied Chaser dragonfly makes short flights over the water and returns to her favoured perch by the willow bush. Some Red darter dragonflies also came to a regular spot but quickly disappeared; perhaps more easily targeted by predatory birds.

White, brown and orange butterflies pass by frequently. Meadow Brown, Small Copper and bright orange-coloured Comma butterflies sometimes settle on a bramble leaf. Two pairs of Speckled Woods spiral upwards and small birds flutter in the hedgerow as a white butterfly footles among the bulrushes. Peacock and large Red Admiral butterflies find a buddleia bush while a bumblebee arrives noisily and weaves through the hedgerow with a continual loud buzzing.

On many days a large Southern Hawker dragonfly appears above the water and jinks to avoid a swooping sparrow. A male Hawker patrols tirelessly as a female hides on the bank. Later, the female, resplendent with lime green and dark bands, flies back and forth, high and low, across the pond. She hovers to examine visitors and side-slips deftly in the air to avoid another sparrow's attempted ambush.

There are white and some yellow fringed water lilies flowering. Bulrushes have set seed heads, knapweed and purple loosestrife plants are starting to bloom. The bramble thicket is impenetrable (except for birds, insects and small mammals) with a heavy crop of blackberries – the first ones are already ripe.

In the water, a newt cruises slowly near the bottom of the pond while small beetles swim by under the surface. Water Boatmen and Whirlygig beetles are active on the clear water. Many water beetles patrol the surface and each chases intruders from its space.

Paul shevlin

Here is a small photo gallery to help you to recognise some of the insects we see. Mostly dragonflies this month as the butterflies won't stay still.

Baldhu Messy and Forest Church

It has been a busy July for Baldhu Chapel!!

Messy and Forest Church kicked off the month with the theme 'Come follow me.' with Jesus' calling of the disciples. There was a disciple hunt where a disciple was coloured in and then you had to hunt for the 12 disciples.

Also, a 'gone fishing' game, and we created our disciple scarecrow for the festival in Carnon Downs.

The session finished with trying something new in a toastie and fruit kebabs, as well as a celebration of the story and a song.

We then went into our week of activities outside at 'Baldhu Feast', with both our Sunday services outside, including a pet blessing. A Fish and Chip supper evening was held in the Marquee, and a Summer Sankey Praise evening.

We had our 'T' treat fun sports evening on Friday, all joined in to be rewarded with a Saffron 'T' treat bun!!

We had a wonderful time on Saturday, when Josh Curnow joined us for an evening of music and testimony.

Thank you to all who helped!!

The next **Messy and Forest Church** is on the 6th September at 2pm. But there are more fun events planned for August.

Refuse in Jake's Lane

Concerns have been raised about rubbish that has accumulated in an area of Jake's Lane due to household waste being left out in an unacceptable way for weekly/fortnightly collection. The Suez team have their own instructions to follow and will not take items in the wrong containers.

We have all had to get used to the new collection schedule and containers, with food waste going in the green bin every week and general waste/recycling collected on alternate

weeks. Despite notices being left as reminders, there are still containers being left with 'all sorts' in them and the situation now presents a health hazard and has been referred to Environmental Health. Please ensure that your waste is out on the correct day and in the correct container, as most of you already do.

If you are still unsure about what you should be doing, then please contact Cornwall Council online (rubbish and waste collections) or call 0300 1234 141

“OUT AND ABOUT!”

Both **Road Safety** and **Highways Management** have been given a significant lift around Chacewater recently as Cormac staff have been out and about clearing many roadside grips. This will help drain any potential flood or surface waters that are likely to come in the Autumn and Winter period. It is vital that we think ahead here!

Sharp on the heels of these works and on completion of the Highways works on Kerley Hill, Cormac have put a real effort in to reinstating the white road markings at many of our road junctions, as can be seen in these photos of Kerley Hill and Todpool entrance.

However, more needs to be done and so a check of all such junctions, lay-bys, etc. will be documented and shared with Cormac. where the Parish Council believes they should form part of these works

Management of our Public Rights of Way (PRoW). Our PRoW contract team and the Parish Council have engaged to ensure we maximise the funds allocated from Cornwall Council's Local Maintenance Partnership (LMP) for cutting or

strimming our many Byways, Bridleways and Footpaths. The Parish Council matches those LMP funds and we believe what we have represents a good deal. Volunteers do step in to tackle some areas that need a “light touch” snip. It's very much a **TEAM effort**. Those who enjoy our PRoW can help out here by taking a pair of secateurs with them on a walk and snip away at any overgrowth they can reasonably and practically manage – it really does help to remove unwanted brambles, gorse, holly or bracken. Thank you in advance for anything you can do!

Car Park River Bank Makeover

Some residents may have noticed the **completion of the Riverbank recovery works** along the eastern end of the Main Car Park. Cormac's Countryside Access Team (CAT) provided much of the mulch/bark that has put the polish on another massive **TEAM effort** that now sees the Riverbank transformed from a frequently fly-tipped area to one that is now dressed with healthy shrubs taken from the Community Garden, Millennium Green and other spaces around the Parish. Cormac's CAT complemented our own shrubs with other really good looking and colourful plants such as Agapanthus and Coreopsis. This photo doesn't really do the space justice, but most things are growing and so we eagerly wait to see how it shapes up in the years to come – importantly, it is a low maintenance initiative that we hope will be respected by everyone!

MONTHLY LITTER PICK

After a couple of months off for good behaviour, our monthly Community Litter Picking Group will recommence their activity from **8.30 to 9.30am on Tuesday 19th August**. We will meet once again at the car park adjacent to the Old Smithy building up at Wheal Busy.

THROWING LITTER FROM YOUR VEHICLE?

For those who didn't see the recent BBC Spotlight item or other media platforms, reporting significant fines being dished out for those littering from cars, you might just be interested in opening up this link: [Three more litter louts caught on camera on Vimeo](#)

Those fines were, we have been advised, quite significant. All caught on bodycam or CCTV, we cannot say that we haven't all been warned!

'FLASH MOB'

16TH AUGUST 2025 – RECREATION GROUND

The Monthly 'Flash Mob' will return to the **Recreation Ground on Saturday morning of the 16th August**, at the **West End**, where we will attempt to recover the grassed area from the Store to the line of the Silver Birch coppice behind the football pitch goal mouth.. It's only an hour, so please join in if you are able, between **10.00 - 11.00am**. All you need is yourself, a stout pair of gardening shoes or boots and gloves.

St Paul's News

At the time of writing, summer has appeared! The old Churchyard is alive with fledgling birds and butterflies! It is a joy to watch them dance between the flowers. Hopefully you will go and have a walk around the churchyard, it is a beautiful place and remember there is a bench where you can sit and enjoy the view.

As with the change of season, come changes at St Paul's too. From July, the Sunday services start at 11.00am.

For the last few years, I have had the privilege of leading Services of the Word and I have enjoyed it immensely. However, I am

stepping down as worship leader from August, so I can have the time to do some much-wanted studying and more creative writing. Thank-you to all who have supported me all these years, I could not have done it without you and thank-you to all at St Paul's for all your love, good wishes and understanding as I take the time to dedicate myself to other endeavours!

All at St Paul's wish you a lovely summer and let's hope the weather stays good!!!

Linda Shevlin

THE GARDEN PATCH

AUGUST 2025

What glorious sunshine we are having - making the most of these long summer days! ☀

For some of us gardeners it may be a struggle keeping up with the watering requirements however, there are a number of plants that thrive in these conditions. Drought tolerant plants are adapted to survive with minimal water making them the ideal plants for gardens with limited water supplies. These plants can come in numerous forms from vibrant perennials to shrubs to striking succulents.

Lavender is a popular fragrant perennial that is known for its low maintenance and thrives in sandy well drained soils and requires full sun to flourish.

Succulents come in many forms and are great plants to plant in containers and thrive on little water and need very little attention. Many are quite simply stunning with their colourful leaves and leaf textures. Many succulents are quite small so are ideal for even the smallest of pots. Depending on your location, some succulents will need bringing in to protect from the winter frosts.

If you would like any further information, please come along to Chacewater Garden Centre and have a chat with any of the helpful and friendly staff.

Ashley (Plant Area Manager)

Aeonium's are a great succulent to grow

HELP MANAGE OUR MAIN CAR PARK

For many years we have achieved the right balance between resident and visitor parking in the **Main Square Car Park**. However, recently that balance has been lost on **some residents** and is now **causing more harm than they know**.

Rules and Regulations for use are clearly displayed above the post box in the car park and this is a timely reminder to us all to do our best to share the area for everyone's benefit. This is a busy space allowing visitors to access the health centre, shops and other local facilities.

A significant number of residents who do not have a parking place of their own use the Main Square Car Park instead and that's fine, so long as it's just the **first car or (exceptionally) an 'in use' second vehicle**; this has been **the rule of thumb** for many years now. However, we are seeing **more and more residents parking vehicles categorised as long stayers** (i.e. they do not move in weeks, months or over a year in one current case) and some are not even in date for tax or MOT, which is truly shocking.

So, a plea NOW to do the right thing. The only alternative will be to introduce some form of very costly enforcement system which will impact negatively on us all.

PLEASE HELP US TO HELP YOU!

L. J. TREGUNNA FUNERAL DIRECTORS

Established in 1948

As a third-generation family business, we fully understand the needs of our families who are seeking guidance during this difficult and sad time. Our services are conducted around Truro, mid Cornwall and further afield. We strive to provide a caring, dignified, personal and professional service, 24 hours a day, 7 days a week.

Community Garden

The very hot weather and lack of rain has tested most gardeners this year. Our water collection system and pumped storage containers have served us well and allowed regular watering to be done around the plot, although there was concern as water levels dropped! After poor growing results last year, we have kept choices simple but are amazed that the runner beans have just not appeared, they are usually one of the more reliable crops. Fruits and flowers have flourished with the top cut-flower area being a riot of colour, and it looks as though we will get our first crop of useable apples as the trees have now been in for three years.

The rose bed is filling up and we have been gifted another beautiful plant (thank you), “Midnight Blue” which will be a darker contrast to the pink and peach colours already there. We have also added a clematis to climb up the central obelisk – this came from

Roseland House (where they hold the national collection of viticellas). We had hoped to plant the variety named “Chacewater” but were advised that it may not do well in our exposed position so we have gone instead for “Cornish Spirit” which sounds just right for this community project.

This is a good place to mention the rose growing at the top of the car park steps which has flowered so prolifically this year. It was planted to mark the royal platinum jubilee and is called “Queen Elizabeth II”, chosen by the late Queen to mark the occasion. At the time we could only get a bare root plant which was nothing more than a few leaves on stubby sticks and got rather lost amongst our celebrations. But it has grown, as we’d hoped, into a lasting memento of the event, our thanks to the volunteers who look after the bank here, the colour is lovely to see and brightens the area throughout the year.

We are always looking for ways to improve the garden and give more useable space for the future. On grey, damp days we often move into the shed to complete planting/sowing/cuttings tasks, but it is dark with little natural light. Our clever ‘elves’ have been on the case and we now have a couple of strips of LED lighting which are powered from the leisure battery, which in turn is charged by the solar panel on the roof. The shed roof also provides our main water collection point so is a really important feature of the garden. Practical knowledge

*Queen Elizabeth II rose on
jubilee day in 2022*

and skills are shared in the group and it is a great way to learn, we are very lucky and every day is a school day!

Summer pruning is now underway on some of the fruit trees and, again, we are learning how this should be done to get a good fruit crop next year. Books and online tips are helpful but it's great to watch someone doing this and ask questions – I shall be trying it out on my own apple trees this year.

One result of the hot sunny weather has been the abundance of grasses and wild flowers growing around the banks and edges of the garden. Another plus is that there are fewer weeds! Although the recent rain will probably encourage them back again - life is never easy.

All are welcome at the garden. Please come along to one of our sessions (Wednesday and Saturday 10am – 1ish) or just join us for coffee and a chat. We'd love to see you!
